

Everyone Home DC believes that when everyone has access to a safe, affordable, and comfortable home, we can all thrive. All people transitioning out of homelessness need resources beyond decent, affordable housing to thrive. They need access to nutritious foods, education, employment, parenting supports, children's services, transportation, physical and behavioral health care services. Everyone Home DC approaches its services with a whole person, whole family, and whole community mindset. Everyone Home DC exists to provide a range of housing solutions and supportive services to ensure that individuals and families in our community have what they most need to thrive.
